Duplicate Charge Investigation

What counts as a duplicate

Two charges on the same account for the same plan and billing period posted within 72 hours of each other are treated as a possible duplicate.

Investigation steps

Check the account's charge history, compare plan, amount and period, and check for an earlier cancellation request. If the account was cancelled or a cancellation was requested before the second charge, treat it as a charge-after-cancellation case.

Outcome

A confirmed duplicate is escalated to the billing team for review. Support never promises a refund during investigation.

Synthetic, fictional policy for a demonstration. Document key: duplicate-charge-investigation.
